1 Comments: I have no fear of nuclear waste coming through this state, cities or towns, nor of it being deposited at Yucca mountain. Anyone with even a small amount of intelligence would rather see nuclear waste deposited in a desolate area than in a highly populated area such as New York, Illinois, Pennsylvania or Florida. As usual the people running our government... and the press love to stir up all kinds of controversy instead of telling the honest to God truth. What good exactly is Yucca mountain, if not to serve mankind this way?
